

## **FC Donates \$15,000 to FFA Chapters in Our Trade Area**

We are pleased to announce that Farmers Cooperative Company (FC) has created a new project to partner with FFA chapters in our trade territory. The Education Enrichment Program has been developed to assist the FFA Chapters with funding for agriculture educational items for the class room. FC has committed \$15,000 for this program to be used toward items such as computers, textbooks, and equipment. Each chapter will receive funds based on a student count provided by the Iowa FFA.

The “Education Enrichment Program” was developed after an FFA instructor in central Iowa asked FC for a donation to replace textbooks that were over 20 years old. FC is committed to supporting youth who are interested in agriculture and understands that having supplies for your class room is critical for their development.

FC fully supports FFA's efforts to nurture students and provide them opportunities to learn, grow and contribute to the future of agriculture. We are pleased to be able to assist the FFA chapters in this way and to support and encourage the youth in their agriculture education.
