TOGETHER WE CAN

Rockwell City, IA, April 14, 2010: While none of the people involved in today's incident were employees of FC (Farmers Cooperative Company), our thoughts and prayers go out to the individuals involved and to their families.

FC had contracted the construction of a seed warehouse at its facility in Rockwell City, IA to an outside contractor. Work was being done to finish the framing of the structure today. At approximately 10:25 a.m. the structure apparently collapsed for reasons yet to be determined. FC employees in the office nearby called 911 immediately and local law enforcement and medical personnel were on the scene within minutes. There were injuries to the contracted workers as a result of the collapse and FC is waiting for additional information.

All inquiries directed to FC should be forwarded to FC Communications Director, Tessie McKinney whose contact information is listed above.
