\$/Acre Assumptions = \$6.00/Bushel Selling Price and \$0.05/Point of Moisture over 15.5%.

**2011 Relationship Between Yield and Moisture at Pocahontas-IA 110RM**

\*Because of factors outside of Winfield Solutions' control, results to be obtained, including but not limited to yields, financial performance, profits, losses or otherwise, cannot be predicted or guaranteed by Winfield Solutions, LLC.

\*\*Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.
